Cognitive technology: instruments of mind. 4th ...

Abstract. This paper discusses the tool aspect of the cognitive artifacts often referred to as 'instruments of mind'. Having established the basic distinction between tool and instrument, the authors then go on to review the notion of artifact itself, and discuss the potential for mind change that is inherent in the use of 'mental' instruments such as the computer.

ABSTRACT. The human psychological condition arises in a strange loop. The mind is created within a cultural envelope which is itself created by the mind.

Human Identity in the Age of Software Agents | Proceedings ...

Cognitive tools are educational technologies that help students learn. They enable students to think more deeply about a topic or perform at a higher level than we would without them. A cognitive tool does not do the thinking for students but provide strategies and guidance to help students to process information more efficiently.

Cognitive Tools for Education | 5 Examples (2020)

A cognitive technology is any medium that helps transcend the limitations of the mind (e.g., attention to goals, short-term memory span) in thinking, learning, and problem-solving activities.

Cognitive Technologies for Mathematics Education

Cognitive technology is an umbrella term sometimes used to designate the realm of technologies that assist, augment or simulate cognitive processes or that can be used for the achievement of cognitive aims. This technological macro-domain encompasses both devices that directly interface the human brain as well as external systems that use artificial intelligence to simulate or assist (aspects ...

Democratizing cognitive technology: a proactive approach...

The study of Cognitive Technology is, in a very real sense, the study of ourselves. Who we are, what we are, and even where we are, are all jointly determined by our biological natures and the web ...

The title of this meeting is Cognitive Technology: Instruments of Mind. In this paper, we try to characterize the ways that the instruments of our minds are compromised by the restrictions that our bodies and physical environment place on them. This can be regarded as a proposed approach to the study and practice of cognitive ergonomics.
