### Commercial Chicken Meat And Egg Production PDF

Commercial Poultry Poultry is the class of domesticated fowl (birds) farmed for their meat, eggs or feathers. These most typically are members of the orders Galliformes (such as chickens and turkeys), and Anseriformes (waterfowl such as ducks and geese). The word poultry is often used to refer to the meat of these birds. In a more general sense, it may refer to the meat of other birds, [...]

### Commercial Poultry - Poultry Hub

Commercial poultry breeding The poultry industry breeds chickens destined for both commercial egg and meat production. Geneticists design special breeding programs to select birds with the best characteristics for egg or meat production. This selection process (called genetic selection or genetics) allows the industry to select strains of birds which are produced very efficiently in intensive ...

### Commercial poultry breeding - Poultry Hub

Meat and eggs from indigenous poultry differ in appearance and taste from commercial poultry products, and are often preferred by consumers. For example, eggs from indigenous hens are considerably smaller than eggs from commercial layers (usually weighing over 50 percent less) and may have specific qualities.
