### Communication Models and Theories

Aristotle's model of communication is the oldest communication model, dating back to 300BC. The model was designed to examine how to become a better and more convincing communicator. Aristotle argues we should look at five elements of a communication event to analyze how best to communicate: speaker, speech, occasion, target audience and effect.

### All 8 Models of Communication, Explained! (2020)

The Schramm Communication Model offers a classic approach to and explanation of communication. It can be used to determine how communication between two people works when they're exchanging information, ideas, or attitudes. The cyclical communication model is based on the theory and belief that communication is a two-way street. This means there's at least a sender and a recipient.
