Construction Law

Construction law is a branch of law that deals with matters relating to building construction, engineering, and related fields. It is in essence an amalgam of contract law, commercial law, planning law, employment law and tort.

Construction law - Wikipedia

Construction law is the combination of all of the areas of law that apply to construction work. The process of building is complex. Builders have to follow a large number of rules and regulations. There are many things that they need to know and do before they ever pour the first bit of cement or clear the first tree.
