Essential Difference By Simon Baron

We all appreciate that there are differences in the typical psychology of men and women. Yet underlying these subtle differences, Simon Baron-Cohen believes, there is one essential difference, and it affects everything we do: Men have a tendency to analyze and construct systems while women are inclined to empathize.

The ...

In The Essential Difference, leading psychologist Simon Baron-Cohen confirms what most of us had suspected all along: that male and female brains are different. This groundbreaking and controversial study reveals the scientific evidence (present even in one-day-old babies) that proves that female-type brains are better at empathizing and communicating, while male brains are stronger at understanding and building systems-not just computers and machinery, but abstract systems such as politics
