This is also true for the friezes as well. Many of the friezes for hexaflexagons of large numbers of sides will twist back and around on themselves. An example of this is on the page for the 12 sided Zodiac flexagon model of this website. Sometime I will write up an advanced hexagon creation article to cover these cases and a few other topics.

The Flexagon Portal - Hexaflexagon Construction

Instructions and material to create hexaflexagons, tri-tetra flexagons, ring kaleidoscopes, flippers, cubes, flexacubes, and more!
