With over 23,500 MW installed, 24,000 + MW under service, and approximately 6,000 employees, Vestas US is the number one wind turbine company in the USA. Our North American market is served from our Portland, Oregon Headquarters and we supply turbines from our four factories in Colorado.

**Vestas US**  
Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with +115 GW of wind turbines in 81 countries, we have installed more wind power than anyone else.

**Vestas - wind turbine solutions and services**  
This annual report incorporates Vestas' financial reporting and the measures it has taken to reduce consumption of Earth's scarce resources and the company's environmental footprint.

**Vestas' annual report 2012**  
Vestas held the title as the world's largest turbine supplier in 2018, due to its wide geographic diversification strategy and strong performance in the Americas. Goldwind moved up one position to second place after its domestic market share increased by 5.1% in 2018. Siemens Gamesa fell one position to third place, primarily due to lower installation in the UK, Germany and India in 2018.
