### George Washingtons Teeth

George Washington's teeth. The teeth of the first American President and the dentures that substituted them. American President George Washington 's teeth began to fall out before he reached the age of 30, and he eventually lost them all. During his lifetime, he had at least four sets of dentures made to replace them.

### George Washington's teeth - Wikipedia

Deep within one of Washington's account books is an entry which details Washington's purchase of nine teeth from "Negroes" for 122 shillings. Whether the teeth provided by the Mount Vernon enslaved persons were simply being sold to dentist Dr. Jean-Pierre Le Mayeur or whether they were intended for George Washington, is unknown at this time.

### George Washington's Teeth · George Washington's Mount Vernon

George Washington Ledger B, 1772-1793, May 8, 1784, Library of Congress. Whether the teeth provided by the Mount Vernon enslaved people were simply being sold to the dentist for any patient who needed them or intended for George Washington, is unknown. Since Washington paid for the teeth it suggests that they were either for his own use or for someone in his family.
