## **Organic Pools DIY manual**

Place a small water pump on the far end of the pool. Though the natural pool will use plants to filter the water, you will need a pump to move the water towards the plants. Buy a small water pump at your local hardware store or online. Place it at the far end of the pool and run electricity to the pump so it can run.

Natural Swimming Pool Design. A major difference between traditional pools and natural pools is the design. For the most part, a natural pool does not adhere to the standard rectangular design. Instead, the pool can have any shape you prefer to make it look more like the type of natural pool formation found in a forest-type landscape.

Natural Pools work entirely with nature to provide hygienic water for swimming. Over the past five years, building my own pools and meeting experts on Natural Swimming Pools, I have rethought the processes needed to create hygienic swimming water and I have come up with a system completely geared to fellow DIY pond builders.
