Using geo-grid involves digging only 16 inches below the surface and laying grid down to bridge base materials together. This creates a solid support structure for new asphalt at a fraction of the cost of traditional undercutting. Wolf Paving has also pioneered a new process called plowing.

The Complete 7-Step Process for Asphalt Pavement Installation
Asphalt driveway material is similar to what you see road crews laying on roads. Also called hot mix or hot mix asphalt, it is an aggregate of stone and sand, along with a slurry of asphalt, a tar-like material made from petroleum. The asphalt is heated to over 300 F to liquefy it.
