Great book showing product sketches. The only reason why people are leaving bad reviews is because they are too dumb to read the product description. Nowhere does it say that it is an instructional book. It even says that in the book intro. It is simply a book giving examples of product sketches of various refinements and it does that well.

Rough Sketches. Producing rough sketches should be an easy task but some beginner artists encounter mental barriers that prevent them from achieving their desired results. I should know because I am one of those strugglers! To counteract the recurring problem of blockages that I invent for myself, I now make up experiments for fun.
