The Evolution Of Desire Strategies

To answer this question we must look into our evolutionary past, argues prominent psychologist David M. Buss. Based one of the largest studies of human mating ever undertaken, encompassing more than 10,000 people of all ages from thirty-seven cultures worldwide, The Evolution of Desire is the first work to present a unified theory of human mating behavior. Drawing on a wide range of examples of mating behavior -- from lovebugs to elephant seals, from the Yanomamö tribe of Venezuela to ...

Amazon.com: The Evolution of Desire: Strategies of Human ...

The Evolution of Desire is indeed quite interesting. Data shows that in the sexual selection process, humans choose between temporary (casual) and long-term (co-parenting) and use many strategies to attract and keep a mate. For the most part, men want casual sex with a young, beautiful child-bearing female.
