The R Book, 2nd Edition | Wiley

“Overall, The R Book (Second Edition) is a great guide to the vastly powerful and constantly evolving software that is R. It is very close to a complete reference-the coverage is excellent. For most users of R, having this book as guide will make life with R much easier, and learning to master it much faster.”

The R Book | Wiley Online Books

The online documentation for R is fragmented and somewhat confusing. If you are an experienced programmer who wants to make robust applications in R, you need this book. Much of the R code written is for temporary or expedient use. This book explains the vagaries of the language so that one can make re-usable modules.
