Statistics is the study of numerical information, called data. Statisticians acquire, organize, and analyze data. Each part of this process is also scrutinized. The techniques of statistics are applied to a multitude of other areas of knowledge.

Understanding Statistics - ThoughtCo

SPSS Syntax Editor Window. The output table we showed was created by running Descriptive Statistics from SPSS' menu. Now, SPSS has a second option for running this (or any other) command: we can open a third window, known as the syntax editor window. Here we can type and run SPSS code known as SPSS syntax. For instance, running descriptives income_2010. has the exact same result as running ...
